Once upon a midnight dreary,  
While I web surfed, weak and weary,  
For pages long forgotten yore,  
When I clicked my fav'rite href,  
Suddenly there came a warning,  
and my heart was filled with mourning,  
Mourning for my dear `/missing.pdf`,  
"Tis not possible!", I muttered,  
"Give thine pages, I employe!"  
Quoth the server, **404.**
